To whom it may concern:

All too often we take for granted an employee who does an outstanding job and we don't realize how well he's done until the employee leaves. That's why I feel that I have to write this letter to let the reader know about the performance of Dave Helgerson. Dave has worked for Maurice Sporting Goods as Programmer for 6 1/2 years. In my career as Information Technology Manager for more than thirty five years I've employed a number of programmers. I have to say that Dave was the best of all of them.

Dave is a pleasure to work with. His dedication and commitment in performing his responsibilities was clearly exceptional. He took pride in the performance of his assigned duties with some of the best innovative ideas we have ever seen. He had no unscheduled absenteeism in his 6 plus years of employment with our corporation. Whenever he was asked to assist with a problem from our day shift computer operations or from our night shift, he was available and solved the problem.

I feel that I am losing an employee as well as good friend. Dave would be an excellent candidate for any type of programming position. I'd definitely hire him back. Feel free to contact me with any question or concerns you may have in considering him for employment. The programming benchmark that was established by Dave will make it very difficult for anyone to follow in his footsteps.
